

Environmental Health and safety for kindergarten

Community Social Project Agenda

- ✚ Location: Ishik Kindergarten**
- ✚ Date: 3 / 5 / 2023 Wednesday**
- ✚ Time: 8:30 AM - 12:00 PM**

*First day**

Greetings from the principle and vice principle and all staffs in Ishik kindergarten

The vice principal of the Ishik kindergarten welcomed the attending nursing educators and students. She conducted a tour to get to know and interact with their students.

Presenting seminar by Nursing students to the kindergarten's children

Nursing students presented seminars about sleep pattern, personal hygiene, road safety, respect and obedience, nutritious diet, and environmental dangers in order to enhance children's environments, their quality of life, and their awareness of environmental concerns and engage them with the best attitude.

Evaluating children by students

With the assistance of nursing students, children repeated and demonstrated practically every subject they had learnt during seminars.

Environmental Health and safety for kindergarten

Community Social Project Agenda

- ✚ **Location: Ishik Kindergarten**
- ✚ **Date: 10 / 5 / 2023 Wednesday**
- ✚ **Time: 8:30 AM - 12:00 PM**

*Second day**

Brochure distribution

Our students created a pamphlet that discussed environmental protection, hazard safety advice, be kind to animals, controlling bleeding, seasonal self-care, picnic behavior, and disruptions among kindergarteners in order to promote health awareness among kindergarten pupils in the environment.

Explanation pamphlets topic

Following the distribution of pamphlets, nursing students educated and talked with kids about each subject they had prepared and given a present to encourage more kids' interest.

Evaluating children by students

Children enquired about any topics that were unclear, repeated and demonstrated nearly every topic they had learned at lectures, and received support from nursing students.
